ROTARY MINUTE

RI Dues Increase

Representatives at the 2010 Council on Legislation approved Tuesday a US\$1 a year increase in per capita dues that clubs pay to Rotary International, starting in 2011-12.

The increase is only half the amount the RI Board of Directors had initially proposed. The original amount of a \$2 annual increase was based on financial forecasts projecting deficits for RI in coming years without a dues increase. But directors reduced their recommendation after a variety of recent financial indicators showed a more positive economic forecast for RI.

Markets have improved considerably since the last fiscal year when the original proposal was finalized, and Rotary's General Surplus Fund is well above the Council-mandated minimum reserves.

In addition, the Secretariat has been successful in making significant cuts in expenses, including expanded offshore operations in Pune, India. Other budget cuts have resulted in less spending for consultants, temporary help, volunteer expenses, publications, and postage. The RI Board and general secretary are committed to continued process improvements and cost reductions. According to a five-year forecast presented to the Board last week, actual 2010 revenues are \$12 million below projections made in 2007, the last time the Council set the rate for per capita dues. But expenses are \$20 million below those earlier projections. The Council action means that Rotary clubs will pay per capita dues to RI of \$51 per year in 2011-12, \$52 per year in 2012-13, and \$53 per year in 2013-14. Per capita dues are currently slated at \$50 for 2010-11. The measure will also result in an increase in per capita dues of \$0.50 per RIBI member each year beginning in 2011-12.
